

November 20, 2017:

~ Max Verga ~

Max learned to hand quilt at the early age of three! He studied interior design at the New York School of Design, learned stain glass design and constructions and has evolved into an award winning art quilter.

His quilt creations incorporate the use of bold prints & color and are embellished with decorative stitching, beads and sequins.

Max has also created a series of kimonos and frequently incorporates Asian themes into his quilts.

Max continues to try to meld the craft of quilting with the artist's eye to allow himself and others to view quilts as something more than just items to keep us warm in winter.
